Lupu Pick is a street jazz duo turning the moment into music. With saxophone, voice, drums, and a loop station, Colin and Martin build raw, danceable soundscapes full of energy.

Colin's sax loops provide bass,

rhythm, and texture, while Martin's vocals and beats push the music forward. Blending the spirit of New Orleans with street performance and improvisation, every show is unique – live-created grooves, spontaneous songs, and an

audience that becomes part and parcel of the experience.

Lupu Pick live and breathe a modern, physical jazz sound: funky, urban, and immediate.
